PROJECTS

● FreePOS

A free to use, web-based, point of sale register software designed for vendors, pop ups, and those who need a groovy, easy way to take sales.

● Easy Win Signage

A free to use, simple to setup, windows based signage player software.

● Simple Weather App

A simple and clean way to read the weather. Weather data is compiled from NOAA sources.

● Pocket Card RPG

Use your bulk Pokemon cards in a fully customizable TTRPG.

● Educational & CS Projects

A collection of educational software, curriculum resources, and applications developed during my tenure at Madison Consolidated Schools.
